

SPILL BUCKET CLEANOUT KIT

SUMPUR™ Spill Bucket Cleanout Kit is a comprehensive system designed to safely and quickly remove liquids from spill containment manholes. Each component of the **SUMPUR Kit** has employee safety in mind. The 46" **SUMPUR Pump** allows users to stand while pumping, and provides fast, high volume liquid removal – 28 ounces per stroke – saving time and helping employees to see, and be seen, in high traffic areas. The telescoping **SUMPUR Stick** keeps employees from having to kneel down and reach into a spill bucket, with jaws that grip an absorbent pad and can release without touching the soiled pad. The high visibility **SUMPUR Bucket** integrates instructions and when used with traffic cones, adds another layer of visibility and safety for employees.

ADVANTAGES

- Use standing up for increased visibility and safety
- No kneeling or reaching into spill bucket – use from standing position
- Jaws simplify absorbent pad change – no touching of used pad required
- High visibility for transport of pumped out liquids to hazardous materials receptacle
- ½ lid with hole keeps hose stationary and easily pours out liquids

PACKAGING

- Weight: 10.7 lbs
- Kit includes: bucket, pump, pad stick & pads
- Item #: SUMK
- UPC #: 85047003670

SYSTEM: Simple instructions to understand and use.

SAFETY: Each component has employee safety in mind.

SPEED: Faster cleanouts resulting in less labor costs.
